

SALT Services Important Update

The road to re-opening

SALT Services are delighted to report great news. Scotland's First Minister, Nicola Sturgeon, has announced today that swimming pools can reopen from 31 August. As soon as our partner facility at Wester Hailes Education Centre has provided details about their risk assessment, SALT will begin offering courses and more importantly, training dates.

Backlog of Delegates

SALT will do our best to clear our training backlog as quickly as possible. Priority will go to those who have already paid for courses or who have paid by the time we fully re-open. Post Covid-19 restrictions will likely mean we are restricted to a maximum 4 to 6 delegates per course.

Delegate Safety

A full joint Risk Assessment will be undertaken between all our partner facilities prior to resuming our training programmes.
